Balcony Balustrade Systems offer:

Balcony 1 System balustrades straight, curved and raked - handrails in bronze - Westgate-on-Sea, Kent

A Clear View

Does your balcony *have* to look like a cage?

Balcony Systems allow for a clear panoramic view, complementing buildings from the outside with an unobstructed view from within

Any Design

We can produce a design to suit almost any location

Balcony 2 System, handrails in bronze Romford, Essex

Maintenance Free

All Balcony Systems products are made with only the highest quality materials, durable for years and years, and requiring virtually zero maintenance

Using top grade 6063 T5 extruded aluminum profiles, the best quality powder coating or anodizing, EPDM (Ethylene-Propylene Rubber) gaskets and stainless steel wall fixings, Balcony Systems balustrades can be fitted in any environment including the most corrosive marine areas

Experience

Over 25 years of on-site experience available to create your balustrades, and many miles of balustrades installed worldwide. Our technical departments can handle any client's needs, while our innovation teams mean we never stay still

Balcony Systems Limited has the capability to tackle any size project, with many testimonials from individual clients, developers and building professionals

A whole balustrade needing only one post
Balcony 2 System in silver - Godalming, Surrey

Balcony 2 System handrails in silver - Cambridge

Confidence

Balcony Systems balustrades have undergone rigorous safety testing both on completed sites and in laboratories

These systems have been tested in the United Kingdom to comply with **BS6180 & BS6399**

In France to comply with **NF P 01-013 & NF P 08-301**; this includes passing the notorious "shock" tests!
